

# DAFA Multi Sealing™

DAFA Multi Sealing is a part of DAFA Radon System and is an elastic butyl sealing strip for special seals.

## Application

- Constructions
- Special seals in renovation work
- Roof renovation
- Metal structures, containers, cold stores

## Material

DAFA Multi Sealing is an extruded special butyl sealing strip, coated with stretch film.

## Installation

Remove the cover sheet. Press DAFA Multi Sealing firmly against the item.

Installation temperature:

+5° C to +25 °C.

## Attention!

Surfaces must be completely clean, dry and free of grease and dust.

When used during winter, the tape must be stored at room temperature until mounting.

## Shelf-life

At least 2 years from the production date under normal storage conditions.

Eurofins-certification A+

DAFA Multi Sealing.

For special sealing. Very flexible sealing strip.

## Advantages

- Adheres tightly to most building materials
- Solvent free
- Does not dry out, retains elasticity
- Does not rub off on fingers or mounting surfaces
- Very long-lasting durability
- The product does not contain harmful substances

## Technical specifications

Basis weight	1,40 g/cm <sup>3</sup>
Temperature resistance	-40 °C til +60 °C
Water absorption	Negligible
UV-bestandighed	Excellent
Basic raw material	Butyl rubber
Color	Black
Type	Plastic
Adhesion	Good on PE foil, metal, glass, wood and concrete
Aging resistance	Good

## Roll width

50 mm

## Lenght per roll

5 m

## Contents per box.

8 ruller

## DAFA item no.

620015438

## EAN no.

5705636351131
